

COMPANY ENVIRONMENTAL POLICY

The policy of Deeley Construction is to minimise the negative effects that it has on the environment through the provision of its building services to the public sector and commercial organisations.

We are concerned for the environment and are committed to continual improvement of our environmental performance, ensuring that the impacts from our sites, our offices, and from the use of our buildings are minimised.

We work closely with all stakeholders and external agencies and are committed to ensure that we comply with all appropriate legislation and other requirements to which we subscribe.

We are committed to constantly seeking ways to prevent pollution, avoid the creation of waste and mitigate the risk of negative effects on the environment.

We support the personal development of our employees to ensure that we reflect best practice.

We operate systems that meet the requirements of ISO14001 retaining external approval to this standard.

All staff are aware of the processes operated within the company, and are aware of their responsibilities to follow defined procedures and to report any deviation or anomalies.

Staff are encouraged to provide input to the development and improvement of systems.

The Management of the company establish business objectives which support the implementation of this policy. These objectives are regularly reviewed and revised as necessary with the aim of continual improvement.
